

## BASIC INFORMATION ABOUT YOUR PICKUP

FOR DEFINING THE MODEL OF THE PODLUNŠEK PICKUP CABIN

Please read the instructions below, fill in the form and submit it by e-mail to [info@podlunsek.com](mailto:info@podlunsek.com) so that we can provide you with an informative quote for your Revolux pickup cabin.

1. PICKUP VEHICLE BRAND: \_\_\_\_\_

2. PICKUP VEHICLE TYPE: \_\_\_\_\_

3. PICKUP MODEL YEAR: \_\_\_\_\_

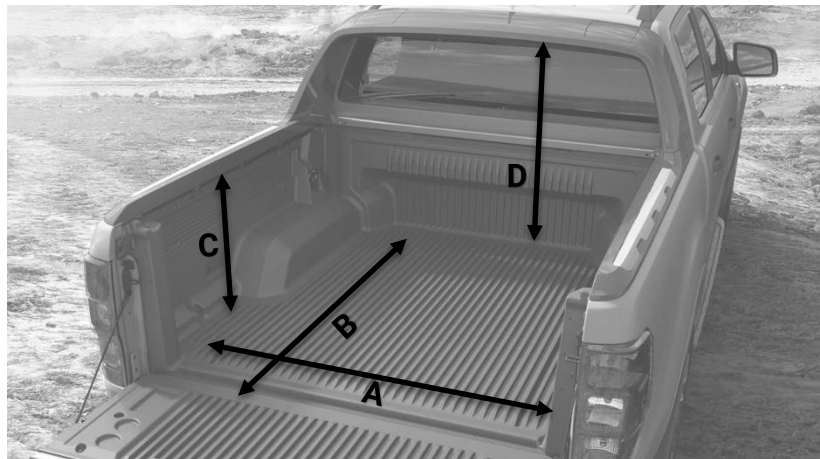

4. DIMENSIONS OF THE PICKUP CARGO BED IN MM: (see sketch below and enter the dimensions according to the consecutive letters indicated by the arrows)

A. \_\_\_\_\_ mm

B. \_\_\_\_\_ mm

C. \_\_\_\_\_ mm

D. \_\_\_\_\_ mm

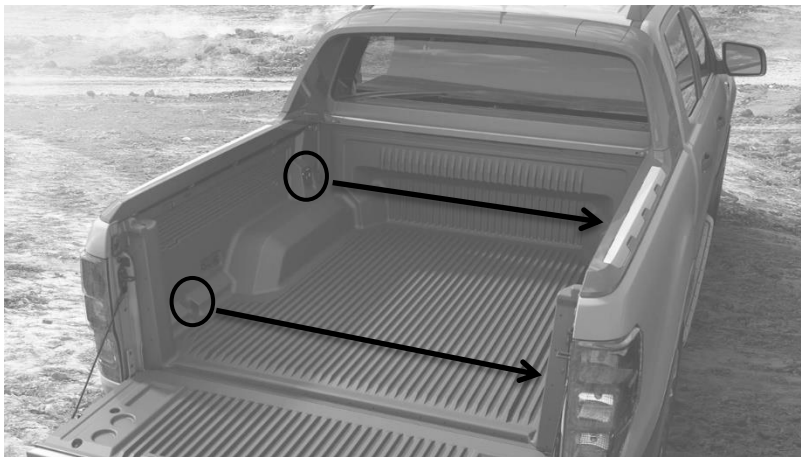

Important:

- The cabin installation is possible even if the factory dimensions of your cargo bed do not fit the Revolux pickup cabin. In this case, please contact us by e-mail at [info@podlunsek.com](mailto:info@podlunsek.com).

## 5. MAX LOAD AT ATTACHMENT POINTS

Note:

- The cabin requires **4 attachment points** in the cargo bed (as shown below).
- Check the load capacity of the attachment points in your pickup's handbook.
- For the Revolux pickup cabin the maximum load per attachment point must be **MIN 300 kg**.

Important:

- If your vehicle does not have the appropriate fixing points or you would like them to be reinforced on the chassis, please contact us by e-mail at [info@podlunsek.com](mailto:info@podlunsek.com).

## 6. MAXIMUM AUTHORISED MASS OF YOUR PICKUP VEHICLE IN KG: \_\_\_\_\_ kg

Note:

- Data on on the maximum authorised mass of your pickup is listed in the type-approval certificate and the vehicle's road licence.

Calculation of the MAXIMUM AUTHORISED MASS (MAM):

- Mass of the vehicle  
 + mass of the Revolux cabin (700 kg + 700/740 kg + weight of selected accessories)  
 = \_\_\_\_\_ < MAM

If the MAM exceeds the authorised mass, we can perform a type-approved modification of the vehicle's suspension and increase the allowed MAM.

7. TYRE LOAD INDEX ON YOUR PICKUP VEHICLE: \_\_\_\_\_

Note:

- Check the load rating of your tyres using the tyre load index stated on each tyre (as shown below).

Important:

- Tyres with a load index of **F ≥ 110** are appropriate for use with the Revolux pickup cabin
